

Nicki Pabst

Today

Freelance

I develop email solutions for customers, and I have partnered with agencies across Denmark to develop email templates for various systems, design solutions and CMS integrations with EMS

Alpaco Email Builder

I am co-founder of Alpaco Aps. Together with my 3 partners have we created the most advanced email builder on the market. Alpaco is the gap between creating beautiful emails and sending it with any EMS.

Geomatic

Web & design for
Robinsonlisten.dk

Video production
Restaurant Grønnegade

I worked with Nicki during my formative years as a Martech Specialist in Magnetix. Working with Nicki is an actual pleasure, since being his colleague means daily laughter and deep meaningful conversations on Fridays. He is a hard worker, a hard learner, and is not afraid to keep you sharp and on your toes if he knows you can handle it. I would recommend Nicki to any company seeking his skills. He is also one of the only guys in the country I would trust to create an e-mail template that would function exactly and specifically as intended on all clients - to the highest and newest standards

- Jonathan Bjerre Guld
